550 Continental Blvd., Suite #130
El Segundo, CA 90245

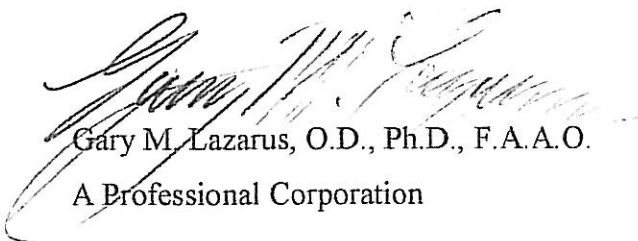

Dear Dr. Straeter:

Per our recent conversation regarding an eye care benefit for your members and their dependents, I have enclosed a proposal of a comprehensive package of professional and material services along with a corresponding group benefit fee schedule. In as much as the cost of rendering services tends to rise as a function of time, the fee schedule should be reviewed annually.

A reply on this matter would be appreciated at your earliest convenience. As you know, our office has rendered these services in conjunction with GVA to your members for many years. We have been in the same location since 1975.

Thank you,

Fraternally yours,

Gary M. Lazarus, O.D., Ph.D., F.A.A.O.
A Professional Corporation

UFCW Local #1442
